PATIOPROJEX

ABOUT US

PatioProjex, a family-run business, takes pride in offering top-notch outdoor living solutions. Specializing in aluminium patio covers and enclosures, we provide a holistic patio experience. Every project is tailored to your exact requirements, with materials manufactured right here in beautiful South Africa.

WHAT SETS US APART

- Amazing Service
- Professional teams
- Swift and precise installations

OUR APPROACH

Being the best in our field, we focus on a limited yet high-quality range of products. This ensures expertise without compromise. Our commitment is to create a seamless, high-quality customer experience from start to finish.

OUR PRODUCTS **AWNINGS**

LOUVRE SYSTEMS | FIXED IBR | PATIO CEILINGS

Louvre Systems

The Patioprojex adjustable louvre awning is by far the most versatile Patio cover on the market. Being able to open and close with either a manual or automated gearbox, this allows you to close during intense sun or a rainstorm or open to allow winter sun. Patioprojex has refined the product to be a custom-made, durable awning system with a full, all-round gutter system, which makes for an incredibly watertight system as opposed to traditional louvre systems.

Patioprojex presents ceiling awnings, designed for durability and weather resistance. These awnings offer seamless and waterproof patio roof solutions suitable for various outdoor spaces.

Key Features

- **Weatherproof Design**
- **Double Roof System**
- **Integrated LED Down-lights**

Benefits

- **Versatile Outdoor Spaces:** Create a weather-resistant patio space suitable for gyms, entertainment areas, and more.
- **Long-lasting Durability:** Built to withstand diverse weather conditions and provide long-term functionality.
- **Enhanced Visual Appeal:** The sleek design and LED lighting add aesthetic value to your outdoor area.

Fixed IBR

Our Fixed IBR awning is the most cost-effective awning in our range. Using the same gutter system as our other products and having a similar aesthetic as the louvre system (besides the fact that it does not open and close), this system is a budget-friendly patio awning system for clients looking for a patio cover or luxury carport.

Patioprojex introduces IBR Awnings, offering stylish and practical solutions to elevate your outdoor spaces. These fixed awnings serve as versatile patio covers or elegant carport shades.

Key Features

- Cost-effective Design:
- Solar-control Options:
- Versatile Applications:

Benefits

- **Stylish Protection:** IBR Awnings blend style with functionality, offering protection against the elements.
- **Customizable Options:** Tailor your awning with solar-control sheets and various design choices.
- **Enhanced Property Appeal:** Elevate your property's visual appeal while creating a comfortable outdoor area.

Patio Ceiling

A cutting-edge waterproof and insulated patio ceiling, with a full all-round gutter system and double roof rain protection, this awning can be used for extra living space, a patio cover, a gym or office space. A common trend is to enclose this system with our aluminium doors and windows and install downlights, standard lights, or outdoor fans to finish off this beautiful option.

Patioprojex presents ceiling awnings, designed for durability and weather resistance. These awnings offer seamless and waterproof patio roof solutions suitable for various outdoor spaces.

Key Features

- **Weatherproof Design**
- **Double Roof System**
- **Integrated LED Downlights**

Benefits

- **Versatile Outdoor Spaces:** Create a weather-resistant patio space suitable for gyms, entertainment areas, and more.
- **Long-lasting Durability:** Built to withstand diverse weather conditions and provide long-term functionality.
- **Enhanced Visual Appeal:** The sleek design and LED lighting add aesthetic value to your outdoor area.

Folding Arm Awning

Transform your outdoor spaces with our stylish and flexible Fold Arm Awnings. These durable awnings provide adjustable shade, perfect for patios, balconies, and commercial settings. Easily extend or retract them to enjoy comfort and protection from the sun. Available in various colors and sizes, they enhance any outdoor area year-round.

Folding arm awnings are a great way to extend your living space without breaking the bank. Not only do they look great, but fold-up awnings also provide protection from harsh weather conditions. Whether you're looking for an extra bit of shade or want to keep your guests comfortable in cooler temperatures, fold-arm extensions are the perfect solution.

Retractable Awning

For any exterior patios and decks that too often go unused, our telescopic retractable awnings breathe new life into those areas by creating all-weather outdoor living rooms that beat the heat. Whether you prefer collapsible canopies or folding sunshades, with a simple extension, you can instantly transform sunshine-baked spaces into shaded oases that maximize your home's usable square footage comfortably anytime.

Retractable awnings offer a modern, flexible solution for enhancing outdoor living spaces. Whether you need a retractable awning for sun protection or a deck roof for rainproof shelter, these retractable awnings provide both functionality and style.

Benefits

- **Versatility:** Retractable roofing can be shut to block out the harsh heat of summer sun UV rays or be fully drawn back to enjoy balmy starry nights. They can also be partially opened to allow just the right amount of sun to filter through.
- **Waterproof:** A retractable roof is 100% watertight. This ensures uninterrupted entertaining even in the wildest rain storms.
- **Insulation:** Insulated against all types of weather conditions, retractable roofing offers the ideal solution for protecting properties from extreme changes in temperature.

Polylight Awning

Seamlessly designed and manufactured to enhance architectural lines and maximize light exposure while providing weather protection.

Material

- **Polycarbonate Sheets:** These are UV-filtering and allow for maximum light exposure.
- **UV Stabilized PVC Frames:** These frames can be extended to various widths and are designed to withstand UV exposure.

Key Features

- **Weather Protection**
- **UV Protection**
- **Light Transmission**

Benefits

- **Durability:** Polycarbonate is a strong and durable material, resistant to impact and weathering.
- **Aesthetics:** They can enhance the appearance of a building with a sleek and modern design.
- **Versatility:** they can be customized to fit various architectural styles and sizes.

OUR PRODUCTS
WINDOWS

CASEMENT | FIXED PANEL

Casement

Aluminium casement windows are our most popular and practical window design, manufactured with a projected top and side-hung sash option suitable for both residential and commercial building applications. These window sashes are secured using high-quality aluminium frames, are low maintenance, and seal completely when closed, preventing moisture and air from passing through.

Key Features:

- Top-hung windows make it easy to access furniture.
- All sashes are draught sealed.
- Low maintenance.
- A variety of top-quality Shatterproof glass types are available
- Window sashes are secured using high-quality friction stays.
- All sashes project outwards for weather protection space
- Smooth and silent operation.

Benefits

- Offers a modern, stylish aesthetic while enhancing natural ventilation and light.
- Weatherproof sealing ensures excellent insulation against wind, rain, and temperature fluctuations.
- Highly durable, corrosion-resistant aluminium frames require minimal maintenance.
- Smooth and silent operation with high-quality friction stays for long-term reliability.

Fixed Panel

A great alternative to walls when you do not want to give up light and flexibility. Fixed panels are a great alternative to walls when you do not want to give up light and flexibility. Fixed panels are energy-efficient, low-maintenance, and provide expansive space to your environment. The biggest benefit is the allowance of light that filters through your space, even when creating a new partition or room.

Key Features:

- Energy-efficient and low-maintenance alternative to walls
- Allows ample natural light, ideal for creating partitions without sacrificing brightness
- Seamless design for enhanced light and expansive views.

Benefits

- Maximizes natural light, creating a bright and open environment.
- A modern and stylish alternative to traditional walls, enhancing spatial flexibility.
- Energy-efficient design helps regulate indoor temperature and reduce utility costs.
- Low-maintenance aluminium construction ensures long-lasting durability.
- Provides an expansive, seamless view, making spaces feel larger and more connected.
- Can be combined with aluminium doors to create functional office or living spaces.

WARRANTY DISCLAIMER

PATIOPROJEX

Patioprojex Warranty Disclaimer

1. Z200 or AZ150 Materials 10-Year Warranty:

Patioprojex guarantees the highquality Z200 or AZ150 materials, forming the framework of the entire **Patioprojex** product line, to maintain aesthetic appeal and functional utility in natural elements for a minimum of 10 years in non-coastal areas.

2. Aluminium Materials 15-Year Warranty:

Patioprojex provides a 15-year warranty for our aluminium materials, including louvre panel carriers, support posts, and aluminium louvre panels. This warranty covers protection against rust, paint chipping, and corrosion for 15 years.

3. Installation Guarantee: 1.5 years (Only for installations done by Patioprojex team).

Patioprojex guarantees the installation performed by our team for a period of 1.5 years.

PATIOPROJEX

Disclaimer for Patioprojex Products

Patioprojex products are manufactured to the highest quality standards, adhering to strict quality control measures and international specifications. Our commitment is to deliver only the finest products to our customers through our network of suppliers.

Covered Products:

- Adjustable Louvres
- Fixed IBR
- Patio Ceilings

Product Warranty: If any part of a **Patioprojex product** fails to function as intended within the specified periods, **Patioprojex** will, at its discretion, replace the item with products of the same or similar quality.

Exclusions from Warranty:

- Minor material imperfections and small paint color variations.
- Surface oxidization due to atmospheric conditions.
- Fair wear and tear, misuse, or abuse of the product.abuse of the product.

Maintenance and Cleaning:

Proper maintenance and regular cleaning are required for the warranty to be valid. **Do not** use solvents or liquids containing ammonia or hydrocarbons. High-pressure cleaning should be done on very low settings to avoid damage.

Adjustable Awnings Specifics:

Clean valleys in the panels regularly. Avoid water from adjacent roofs emptying onto the awning, as it may overload the water management system.

Water Resistance:

Patioprojex adjustable systems is not designed to be 100% waterproof. Damages caused by adverse weather conditions are not covered by the warranty.

Motors and Automation Components:

Not covered under **Patioprojex** warranty; covered by the manufacturer's warranties.

Shipping Outside Normal Territory:

Warranty time periods may be adjusted; details should be confirmed before shipping to such destinations.

Transferability and Validity:

This warranty is not transferable and only becomes valid after full payment. Proof of purchase and payment is required for claims.

Liability:

Patioprojex is not liable for any loss or damage resulting from product failure, irrespective of the cause.

Specifics for Patio Ceiling and Fixed IBR:

Guaranteed waterproof under standard highveld rainstorms. Regularly cleaning of the gutter system and downpipe to prevent overflow is imperative. **Patioprojex** is not responsible for damages resulting from a failure to do so.

Installation Defect Warranties:

Managed by registered re-sellers unless installed by a **Patioprojex** installation team.
